

Accurate genetic sequencing. It's in our DNA.

Get all your Sanger sequencing reagents in one place

Created by a team of global experts and built upon decades of proven results, Applied Biosystems™ consumables help optimize your Sanger sequencing workflow with precision. We've got you covered when it comes to achieving a clean template for your Sanger sequencing reactions—consistently supporting delivery of uniform peak heights and highly efficient DNA sequencing purification. This fast and simple workflow enables the completion of Sanger sequencing, from sample to answer, in less than a workday.

PCR amplification

- Polymerase
- Primers

PCR cleanup

- Applied Biosystems™ ExoSAP-IT™ Express PCR Product Cleanup Reagent

Cycle sequencing

- Applied Biosystems™ BigDye™ Terminator kit
- Primers

Sequencing cleanup

- Applied Biosystems™ BigDye XTerminator™ Purification Kit

Run samples

- Instruments
- Polymers
- Arrays
- Software
